Lifeguarding Review

Employees: Free

Non-Employees: Closed

For lifeguards that hold a valid American Red Cross lifeguarding certification or a certification that has not expired by more than 30 days by the date of the course. This is an accelerated course that assumes students have retained knowledge and skills from their initial lifeguarding certification course. If students feel they need a more thorough review in order to be successful, they should sign up for a full lifeguarding series instead of the Lifeguarding Review.
